middle-earth shadow of mordor - flame of anor rune

Got it in the GOTY edition ;). I like fire fire good. Not recommend can't play as Spice Girls. Unnecessary.. All in all, i like this game. However the movement controls could do with some work. Get caught sometimes when sneaking around against a rock, wall or cliff side.. Just more runes for swords. Beautiful! Nothing more to say!.. Sick of all these people takling bad about this game and its dlcs. Like really grow up. Either play the game without the dlc's or dont. But these dlc's are amazing. Really makes the game more better.. Sweet rune, and with the new price, worth it.. it says 20% chance to ignite on the rune, but honestly this thing glows all day long when I have it equipped. I Picked up the ultimate pack for this game and all DLC's including the DLC are part of it. So with the 40% off sale most of this stuff was free to me and worth every penny. I don't understand why people complain about .99 cent DLC's. They are giving you the option to buy them piecemail for basically nothing. You can barely buy one cig for a dollar these days. This game is awesome top to bottom, any DPC is a plus in my book.
